SWIRLY: Trick or treat!

<http://www.creamsoft.com/mobile/swirly/>

Regarding the free coupons for the Swirly game

At the end of the PR there's a paragraph about free coupons. Please contact me at creams@creamsoft.com for a set of ten to twenty coupons. Please give me the number you need.

A coupon may be branded like for example YOURNAME123 so that your readers can see that they get the coupons thanks to reading your news :-)

More important is that the coupons are one-off and it might upset readers when trying to enter used up coupon. So please contact me to get unique coupons for your readers or for you directly if you needed to review the game.

Thank you in advance for your review or news.

Pozdrawiam
Rafał Płatek
